

This Cycle's Focus
Ecology/Human Anatomy/
Data Analysis

Ms. Fiegel's Biology Calendar
Cycle Beginning 4/29, 2010

Reminders:
Next quiz: 5/7 Heart and Circulatory
System

Day 1 4/29

Classwork:

1. Quiz – Frog and Amphibia
2. Review 1) heart and circulatory system, 2) 3-1,2, and 3, 3) 35-1 and 4) video quiz handout.
3. Instructions for EOC testing

Homework:

1. Read 40-1 and 40-2. (Immune system) Complete wkbk pages.

Day 2/3 5/3 and 5/5

Classwork:

1. End of Course Testing – Report to Rm. 213!!!

Homework:

1. Complete data analysis handout from Painless Science Projects Book.
2. Return Painless Science Projects book to class or bring \$10.00 to pay for book.

Day 3 5/7

Classwork:

1. Quiz – Heart and Circulatory System
2. Correct 40-1 and 2 wkbk.
3. Discuss Introduction to Data Analysis handout from Painless Science Projects book and Lecture – Data Analysis

Homework:

1. Begin organizing binder by topic for semester exam. Start reviewing.
2. Begin data analysis cw puzzle.

Day 4 5/11

Classwork:

1. Data Analysis Using Microsoft Excel – Computer Practice
2. Research for exam essay question – research a specific biology topic, develop an experiment with a measurable independent and dependent variable that is doable by you (not too expensive, doesn't need expensive equipment, all other variables can be controlled, etc.)

Homework:

1. Begin "Getting Started Reviewing for Semester Exam" cw puzzle.
2. Continue development of possible biology IRP topic for next year

Day 5 5/13

Classwork:

1. Qwizdom review for exam
2. Continue exam review cw puzzle.

Homework:

1. Finish exam review cw puzzle.
2. Bring textbook to final exam or check to pay for book.
